

THE TRIBUNE.

DR. F. FELIX GOURAUD'S ARTICLES FOR THE TOILET.

PUBLIC APPROBATION.—We cordially stamp the superiority of Dr. F. FELIX GOURAUD'S POWDERS SUBTILS for preparing Powders for uprooting hair from women's upper lips, sides of the face, back of neck, mouth, ears, &c. &c. that little need be said in its praise beyond the mere announcement that it combines perfect safety with efficacy, and has completely banished all the deleterious preparations which have hitherto been used, professing to remove hair.

GOURAUD'S EAU DE BEAUTE, or True Water of Beauty, for removing freckles, tan, pimples, blotches, sores, & small cutaneous eruptions, realizing white hands, neck, and arms, and eliciting a healthy juvenile appearance. \$1 per bottle.

GOURAUD'S VEGETABLE ROUGE, composed mainly from flowers and simples, imparts a delicate carnation tinge to the cheek, immovable by perspiration, or rubbing with a handkerchief or linen cloth. 50 cents per bottle.

The above celebrated cosmetics are prepared only by Dr. Felix Gouraud, practical chemist, and to be had in New York, only at his exclusive office, 67 Walker street, one door from Broadway, and in the following authorized Agents:

New-York—Alley, Gouraud, druggist, 4 Maiden Lane, Union-G. L. Brown, perfumer, Greene-street, Poughkeepsie—J. Gray, Buffalo—J. Hindle, 157 and 302 Main-street.

Pennsylvania—Philadelphia—Mrs. Brown, 76 Chestnut-street.

Maryland—Baltimore—David F. Smith, 75 North Gay-street.

District of Columbia—Washington—S. Parker, Pennsylvania Avenue.

Connecticut—New Haven—M. Frayer, F-street.

Massachusetts—Boston—A. S. Jordan, 2 Milk-street.

Lowell—G. A. Carleton & Co., City Hall, Lyons—Dr. A. L. Holden, Worcester—M. D. Phillips, Brinley Place.

Springfield—F. A. Cowles, Main-street—Lee—Bell & Field, Salem—W. & S. R. Ives, Newburyport—C. M. Dodge.

New-Hampshire—Portsmouth—W. R. Preston.

Vermont—Portland—T. Hays & Co., Bangor—Meeker, Whittier & Gould, Hallowell—F. Scammon.

Rhode Island—Providence—Charles Dyer, Jr., Westerly—Comstock.

Conn.—Colchester—Summer Clark.

Every bottle of Dr. Gouraud's cosmetics has his name with the name of preparation, and New-York, shown on the four sides, and his full name engraved on the wraps of the Poudres Subtils. None others are genuine.

DYING AND PRINTING ESTABLISHMENT.

Office, No. 111 WILLIAM, CORNER OF JOHN-ST.

ALL KINDS OF SILKS, COTTON AND WOOLEN.

A. GOODS DYED, restored and dressed, including ladies' and gentlemen's garments, such as Dresses, Coat Shawls, Crapes, Velvets, Ribbons, Mornines, Hosery, Camisoles, Carpets, Rugs, Piano and Table Covers, Window Shades, &c. &c.

VE TO BAD BREAD & CAKE.

At No. 33 Hudson and 65 Walker-street, can be had very superior home made Bread and very large loaves.

His Cakes are all made from the best Dairy Butter, the market affords. Also, fancy articles, such as Kisses, Macaroni Cakes, Roast and French Beignets, &c. and large Plum-puddings, &c. of the highest quality and most elegant style. All at MILLER'S.

N. B.—The subscriber also makes the old style of Bread from Rye and Wheat flour, mixed.

Both Buns scented to the last, having the best of Bread.

FIELDS AND DINE SHAVING CREAM.

The superiority of this article over the many imitations used as Shaving Soap and vendored throughout the United States is established by the fact that the judges at the Fair of the American Institute have awarded, for the first premium diploma. It is also recommended as an article of the toilet, for besides producing a rich and permanent lather, it has the advantage of rendering the skin soft and smooth, and its continued use prevents chaps, freckles, pimples, blisters, &c. which are generally produced by the various alkaline soaps. In instant relief, and particularly when the tender skin of infants, men, the general preference extended to it as an auxiliary in surgery over the Castile and other Soaps. It is elegantly put up in covered pots, with explicit directions, and warranted to keep in any climate. None genuine unless H. E. Fiedel.

Sold wholesale by Comstock and Co., 51 Maiden-lane; Olcott, McKeown & Co., 145 Maiden-lane; A. B. & D. Sands, Fulton-street, or William, 53 Fulton, cor. of Goldsmith-street, Dr. F. A. M. Frazee, 100 Grand and Broadway, and T. F. & H. C. Gunn, 129 Broadway. Wholesale and retail by the Proprietor, cor. 10th st. and 2d Avenue.

TABLE OF CONTENTS.

—Natural food of Man derived from the character of his tooth and comparative anatomy of various Authors, among whom are the following:—Plato, Pythagoras, Porphyry, Plutarch, Cuius, Cuvier, Abernethy, Cheyne, Bell, S. Graham, and others.

Tea, and its effects—Sheep fed on flesh—Scrofula from eating pork—Effects of stimulants on the jaws and teeth of man; also on animals, with plates—Milk for the young—Blood-suckers—Mosaic Law—Teething of infants—Salt—Unleavened bread—Manner of preparing and making bread—Fat, and its effects—Nourishment, and its effects—Man must labor for his support—Digestion, and a picture of the human stomach—Mineral poisons, and their effects—Tooth-ache—Relation of husband and wife—Power of assimilation—Feeding London swine—Sleep—Nutritious matter in animal and vegetable substances—Iniquities of parents visited on their children—Corsets and snuff—Various—To young men who intend to get wives and raise healthy children—Disobedience to parents shortens life—Marriage and long life—To ladies who believe the Bible (or say so) and wish to rule their husbands.

It contains 48 pages. Price, 6 cents.

A liberal deduction made to those who buy to sell again.

For sale at the Health Bookstore, 126 Fulton

No. 35 R. over st., Troy, N.Y.

The attention of the public is respectfully called to the numerous number of these Pumps now in use, and to the testimonies of success which have been adduced in their favor, and the manner in which they have been received by them. The wooden cylinder and plunger, and all the working or operating parts of them are of cast-iron. The pipe is of clear glass, turned off to about four inches in diameter, fitted for screwing together at each end, and boiled in a resinous composition which makes it very durable, and free from all the objections charged against lead pipes as being injurious to health.

The advantages peculiar to them are cheapness, durability, ease of operation, and security against frost, they also light and portable.

The writer of this article, while the Pumps have remained where they are best known, together with much experience which the subscriber has had in the business, makes him confident of giving entire satisfaction to every purchaser.

All orders for Well- or Cistern Pumps should give accurate measures of the same from the top of the platform to the bottom, so that the length may be formed suitably at the shop.

Persons building new cisterns and designing to place these Pumps in them, need not incur the expense of a costly platform, as the Pump is secure against frost without it.

As a caution in regard to other kinds of Pumps in circulation which have not my label upon them, the pipe and wooden parts of which are made of white-wood, and some of them of *cambur wood*. I do not pretend to say that all the wooden pipe of my manufacture is selected from the best of white pine, *heart wood*, *free from sap* and being boiled and well saturated in a resinous composition, is warranted in every respect a superior article.

The following persons are agents for the sale of my Pumps, and have at all times a supply on hand.

Messrs. Osborn & Little, Hardware dealers, 23 Fulton-st., New-York; James C. Jones, 40 South Market-st., Atwater, Mr. H. Ward, Schenectady, N.Y.
